Mamoun,

Please run the following query as CAFEDATA_TRANSFER_JAVA on VERIFY PROD and provide the results in XLS format:

```
select * from NHTSA_MFR_CD;
```

Hi Sandra,

Pat and I are still working on identifying the root cause of this issue along with the technical team.

To answer your question, there is a dataflow called VERIFY-MFR-NHTSA. A job runs daily to query the data in a view (VERIFYADMIN schema) provided by EPA/GD-IT. The principal goal of this dataflow is to make manufacturer data

available to NHTSA. Based on our team's research thus far, it sounds like the issue is most likely related to the view (VERIFYADMIN schema). To confirm this we'll need to request that Mamoun run a query for us. Our technical team will be sending that request this morning.

Thanks,
Kyle

Hi Pat,

In the past there was an update needed to the Manufacturer code query in order for the mfr code updates to appear so that the helpdesk can add roles.

I'm confused as to why the NHTSA data flow needs to be refreshed. Can you provide some information? Thanks

Hi Sandra,

We're still looking into it, however, it's likely to take a few days before the NHSTA dataflow is refreshed. Has the helpdesk made any recent attempts?

I'd be happy to follow up with them directly, if you prefer.

Thank you,

Good afternoon,

Can you check to see why the manufacturer code CAS isn't selectable in Prod? Thank you

Hi Holly,

This unfortunately did not fix the issue we are having. We are still not available to select in adding roles or creating a new CRK for this MFR code.

Thanks,

Hi Sherice, for some reason the Manufacturer code was made ineffective 2011-06-07. We deleted the ineffective date so can you please try again to see if that fixes the issue?

Thanks much.
Holly

Hi all,

Helpdesk cannot find the CAS code to add roles to CSCMOTORCYCLES or create a new CRK to add the CAO role for EV-CIS. Has something changed in the system?

Best Wishes,
